# SS PROFILES

We offer different types of sections for manufacturing PVD stainless steel customized furniture. In these sections we do sharp bending upto 10 & 8feet length. We are only engaged in SS work and can also provide customized design as per the customer's requirement on any PVD color and finishes like etching, 3-D finishes, antique finishes etc. Whether you require a single piece of section or in bulk quantity we will customize it for you in sizes and designs both. It is our high end product. Clients can also give us some artistic designs. Our in-house design team will convert it into reality. We will make confidential work contracts for your artistic designs and will promise not to share it with others.
